

Kim Ridout, M.S., PMP®, REM®

Environmental Systems Professional Transitioning into Data Engineering | Python | SQL | ETL Pipelines | Data Modeling | Environmental & Public Sector Data

KimmyRidout@gmail.com | 858.833.1307 | LinkedIn: [linkedin.com/in/kim-ridout-50b32a196](https://www.linkedin.com/in/kim-ridout-50b32a196)

PROFESSIONAL SUMMARY

Data professional with 12+ years of experience in environmental, regulatory, and public-sector programs involving complex multi-source datasets. Currently completing the **MIT xPRO Data Engineering Certificate** with hands-on experience in Python, SQL, ETL workflows, data modeling, APIs, Docker, and database systems. Domain expertise includes water systems, sustainability, agriculture, and regulatory compliance.

TECHNICAL SKILLS

Programming: Python, SQL

Data Engineering: ETL/ELT pipelines, data modeling, data quality, database design

Databases: MySQL, MongoDB, Firebase, Cassandra, Redis, Strapi

Tools: Git, GitHub, Docker, Postman, VS Code, Jupyter Notebook

Libraries: Pandas, NumPy, Scikit-learn, Matplotlib, Seaborn, SciPy

Cloud: Microsoft Azure

Concepts: REST APIs, authentication & authorization, client-server architecture

Professional Skills: Stakeholder communication, project management, regulatory reporting

FEATURED INITIATIVES & PROJECTS

Water Ways Report | Regional water resilience initiative supporting environmental planning and stakeholder engagement

- Coordinated technical consultants and stakeholder workflows
- Synthesized input into final reporting and planning recommendations
- Integrated stakeholder feedback into policy development
- <https://engage.sandiegocounty.gov/water-ways-report>

Food Justice Community Action Plan | Countywide food systems initiative focused on equitable access and community-informed planning

- Synthesized public engagement into structured thematic insights
- Supported policy development and implementation planning
- Integrated qualitative community data into planning systems
- <https://engage.sandiegocounty.gov/food-justice-community-action-plan>

Technical Data Projects | MIT xPRO Data Engineering & independent projects

- Built Python-based data workflows and ETL pipelines
 - Designed SQL-based data models and database structures
 - Developed REST APIs and applied data engineering patterns
 - GitHub Portfolio: <https://kimmyridout.github.io/>
-

CERTIFICATIONS

- **Project Management Professional (PMP®)** — Apr 2025
- **Registered Environmental Manager (REM®)** — Mar 2026
- **IBM Python for Data Science, AI & Development** — Jan 2026
- **IBM Introduction to Data Engineering** — Dec 2025
- **Microsoft Azure Fundamentals (AZ-900)** — May 2026

In Progress / Expected

- **MIT xPRO Professional Certificate in Data Engineering** — Expected Aug 2026
-

PROFESSIONAL EXPERIENCE

County of San Diego — Group Program Manager

Office of Sustainability and Environmental Justice | Jul 2023 – Feb 2026 | 40 hrs/week

Supervisor/Contact: Rebeca Appel, Program Manager, Rebeca.Appel@sdcounty.ca.gov

- Led data-driven sustainability initiatives involving multi-source datasets related to food access, water management and climate resilience
- Managed reporting workflows integrating stakeholder and operational priorities
- Analyzed structured and unstructured data to support policy development and strategic planning
- Produced executive-facing analyses and reports supporting policy and operational decisions

County of San Diego — Supervising Agricultural Standards Inspector

Department of Agriculture, Weights and Measures | Apr 2021 – Jul 2023 | 40 hrs/week

Supervisor/Contact: Jordan Key, Deputy Agricultural Commissioner, Jordan.Key@sdcounty.ca.gov

- Managed environmental compliance data for watershed and stormwater programs across regulated sites
- Developed data tracking and reporting systems supporting regulatory compliance and annual reporting
- Led data collection, validation, and analysis across field teams
- Designed prioritization framework for environmental risk assessment using watershed data

County of San Diego — Agricultural Standards Inspector (Senior/Staff)

Department of Agriculture, Weights and Measures | Mar 2016 – Apr 2021 | 40 hrs/week

Supervisor/Contact: Jordan Key, Deputy Agricultural Commissioner, Jordan.Key@sdcounty.ca.gov

- Conducted data collection, analysis, and reporting across agricultural regulatory programs.
- Maintained records and documentation supporting inspections, enforcement, and regulatory reporting.
- Analyzed operational and compliance data to identify issues and inform regulatory decision-making.

United States Department of Agriculture (Contract) — Application Reviewer & Panel Chair

Agricultural Marketing Service | Jun 2022 – Aug 2024 | ~up to 10 hrs/week

Supervisor/Contact: Dewell Paez-Delgado, Branch Chief, Dewell.Paez-Delgado@usda.gov

- Led structured evaluation of grant applications using standardized scoring frameworks
 - Synthesized qualitative and quantitative data into reports for federal decision-making
-

ADDITIONAL EXPERIENCE

Compliance Aide, County of San Diego — Air Pollution Control District | 2015 – 2016

- Maintained regulatory datasets and supported tracking of compliance and enforcement activities

Park Attendant, County of San Diego — Parks and Recreation | 2014 – 2015

- Supported environmental data documentation and reporting for watershed protection programs

Temporary Office/Data Support, University of Virginia | 2013

- Performed confidential data entry, auditing, and record management for research datasets

Student Laboratory Assistant, California State University San Marcos | 2009 – 2011

- Conducted laboratory data collection and analysis; contributed to published environmental research
-

EDUCATION

M.S., Environmental Sciences & Policy — Johns Hopkins University (GPA 3.97)

B.S., Biology — California State University San Marcos (GPA 3.866)
